PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following papers on the subject of the acquisition of certain land in the Byappanahalli village, Bangalore Taluk, for a cremation and burial ground for Hindus of the Civil and Military Station of Bangalore:—

(1) *Letter No. 5969, dated the 17th February 1911, from the President, Municipal Commission, Civil and Military Station of Bangalore, to the First Assistant to the Hon'ble the Resident in Mysore, Bangalore:—*

At a meeting of the Standing Committee held on the 17th instant, it was decided that land measuring 24 acres 19 guntas and situated in Byappanahalli village, Krishnarajpur Hobli, Bangalore Taluk, as per plan enclosed, be acquired by this Municipality for a Hindu cremation and burial ground.

2. As the land is within the Durbar limits, I have the honour to request that the Mysore Government may be addressed on the subject and asked to furnish this Municipality with a statement of cost of acquisition.

No. 1384—En. 1 plan, dated Bangalore, the 4th March 1911, from the First Assistant to the Hon'ble the Resident in Mysore.

A copy of the foregoing letter, together with the plan received therewith, is forwarded to the Government of His Highness the Maharaja of Mysore, with the request that, if the proposed acquisition is unobjectionable, a statement of cost may kindly be furnished, for the information of the Municipal Commission, at an early date.

---

(2) *Letter No. 11337, dated the 4th May 1911, from the Revenue Commissioner in Mysore.*

With reference to your letter No. R. 5194—L. R. 259-10-2, dated 8th March 1911, calling for certain particulars with regard to the proposed acquisition by the Municipal Commission, Civil and Military Station, Bangalore, of certain lands in the Byappanahalli village, Bangalore Taluk, for purposes of a Hindu burial and cremation ground, I have the honor to forward herewith copy of letter No. R. C. 733, dated 2nd May 1911, together with the enclosures (in original) from the Deputy Commissioner, Bangalore District, submitting the necessary particulars and the statement. It is seen from the Deputy Commissioner's report that the villagers have no objection to the acquisition of the lands in question, that the cost of the acquisition including the value of trees would be about Rs. 6,707-4-0 and that the annual assessment leviable on account of the lands from the Civil and Military Station Municipal Council would be Rs. 34-2-0.

2. The tracing received with your letter under reference is returned as desired."

ENCLOSURE.

Letter No. 733, dated 2nd May 1911, from the Deputy Commissioner, Bangalore District, to the Revenue Commissioner in Mysore.

With reference to your memo No. 9951, dated 27th March 1911, forwarding for early compliance letter No. R. 5194—L. R. 259-10-2, dated 8th March 1911, from the Secretary to Government, General and Revenue Departments, calling for certain information in regard to the 24 acres 19 guntas of land in the Byappanahalli village, Krishnarajpur Hobli, Bangalore Taluk, proposed by the Civil and Military Station Municipal Commission to be acquired from the Durbar and set apart for a Hindu cremation and burial ground, I have the honor to state that the land in question is bounded on the north by the Railway line, east by a foot-track, south by a storm water halla and on the west by the Roman Catholic cemetery and that the villagers of Byappanahalli have no objection whatever for the land being acquired for the purpose proposed.

2. The cost of acquisition as per detail shown in the statement enclosed may approximately come to Rs. 4,680 for land, at the rate of Rs. 200 per acre, and Rs. 2,027-4-0 for the casuarina plantation and other trees on the land, bringing the total cost of acquisition to about Rs. 6,707-4-0 in all.

3. Out of the 24 acres and 19 guntas of assessed occupied land proposed to be acquired, 1 acre and 3 guntas is phut kharab. The proportionate assessment on 5 acres 31 guntas of land to be acquired out of Survey No. 6, is Rs. 8-2-0 and the assessment on 17 acres 25 guntas of Survey No. 7 which is to be acquired in entirety, is Rs. 26. Thus the total assessment of Rs. 34-2-0 which is being collected every year from the raiyats will have to be paid to the Durbar annually by the Civil and Military Station Municipality for the use of the land, in addition to the initial cost of the acquisition of the same.

4. The vernacular file ending with Bangalore Taluk Amildar's report No. 587, dated 26th April 1911, enclosing the mutchalikas obtained from the villagers and owners of land, together with the sketch received is herewith submitted for reference and return.

Land Revenue, dated 6th June 1912.

(3) Letter Pol. No. 1114, dated the 26th June 1911, to the First Assistant to the Hon'ble the Resident in Mysore:—

With reference to your communication No. 1384, dated the 4th March 1911, regarding the proposal of the Civil and Military Station Municipality to acquire 24 acres 19 guntas of land in the Byappanahalli village, Bangalore Taluk, for a Hindu cremation and burial ground, I am directed to state that the Durbar will have no objection to acquire the lands in question and make them over to the Civil and Military Station Municipality to be used for the above public purposes, if the Civil and Military Municipality is prepared not only to pay the cost of acquiring the same but also to compensate the Durbar for the loss of assessment caused to them by the appropriation of the lands for purposes unconnected with agriculture, by either paying to the Durbar annually the proportionate assessment thereon or, if the Municipality should prefer such a course, to pay the capitalised value thereof at 30 years' purchase in accordance with precedents. (Please see Residency letter No. 4386, dated 19th October 1897, and Residency communication No. 2786, dated 27th June 1899.)

The statement forwarded herewith gives particulars of the extent that has to be acquired in each survey number, its proportionate assessment and the estimated cost of acquisition of each plot of land. Excluding 1 acre and 3 guntas out of Survey No. 7, which has already been treated as phut kharab on account of watercourses and for which no compensation is payable to the occupants of the land, the total extent to be acquired is 23 acres and 16 guntas and the compensation payable therefor at the rate of Rs. 200 per acre is Rs. 4,680. The value of the casuarina and other trees on the lands has also been fixed at Rs. 2,027-4-0. These amounts are approximate and will be subject to variation according to the awards to be finally passed under the Land Acquisition Regulation. The proportionate assessment on the lands is Rs. 34-2-0 and the capitalized value thereof at 30 years' purchase is Rs. 1,023-12-0. The lands when made over will be subject to the conditions that they will revert to the Durbar when they cease to be applied for the purpose for which they are now acquired and that the proposal involves no change of jurisdiction.

I am to request to be informed whether the Municipal Council agree to the above conditions and whether further action should be taken for the acquisition of the lands. The plan received with your communication under reply, is herewith returned.

---

(4) Letter No. 4979, dated the 18th August 1911, from the First Assistant to the Hon'ble the Resident in Mysore:—

I am directed to acknowledge the receipt of Mr. Balasundaram Iyer's letter No. 1114, dated the 26th June 1911, regarding the proposal of the Civil and Military Station Municipality to acquire certain lands for a Hindu cremation and burial ground.

2. The conditions proposed by the Durbar have been carefully considered by the Municipal Commission and they have expressed their readiness to pay the cost of acquiring the land at the sum calculated by the Durbar, *viz.*, Rs. 6,707-4-0. I am, however, to point out for the consideration of the Durbar that on previous occasions, lands required for such purposes have been made over by the Durbar to the Civil and Military Station without any demands in the shape of "Kandayam," and the Durbar have also agreed to relinquish their jurisdiction. In this connection, I am to invite a reference to your letter No. 2088—P. 35, dated the 10th August 1896, from which it will be seen that the Durbar agreed to certain lands required for a burial ground being included within the limits of the Civil and Military Station. It will be observed that the land is required for a charitable purpose and in view of the Durbar's generosity in dealing with such requests in the past the Resident is confident that the question of remitting any further charges over and above the cost of acquisition will meet with favourable consideration.

3. In regard to jurisdiction I am to point out that great difficulty must assuredly arise if the Municipal authorities do not possess complete control over the burial ground in regard to sanitation and other cognate matters, and I am to say that Colonel Daly is strongly of opinion that jurisdiction must rest with the authorities of the Civil and Military Station.

4. Finally in regard to the proposed condition that the lands should revert to the Durbar when they cease to be applied for the purpose for which they are now required, I am to observe that, as the cost of acquisition will have been borne by the Civil and Military Station Municipality, it is only reasonable that they should not be put to a loss in the case of the Durbar wishing the land to revert, and I am to say that there would be no objection to the acceptance of such a condition provided the Durbar agree to pay back the value of the land and of such improvements as may have been made, according to the market value of the land at the time of the transfer. I am to request that the Resident may be favoured with the views of the Durbar in the light of the foregoing observations.

Proceedings of the Government of His Highness the Maharaja of Mysore,

(5) Letter Pol. No. 820, dated the 9th March 1912, to the First Assistant to the Hon'ble the Resident in Mysore :—

With reference to the correspondence ending with your letter No. 4979, dated the 18th August 1911, regarding the proposal of the Civil and Military Station Municipality for the acquisition of 24 acres and 19 guntas of land in the Byappanahalli village, Bangalore Taluk, for a Hindu cremation and burial ground, I am directed to observe as follows :—

2. As the Municipal Commission of the Civil and Military Station have agreed to pay the entire cost of the acquisition of the lands now required, the only three points to be settled now are (1) whether it is necessary to make over jurisdiction on these lands to the Civil and Military Station authorities on administrative grounds, (2) whether there are any reasons that would justify the Durbar in waiving their claim for compensation for the loss of revenue that will be caused to them by making over the lands and (3) what are the conditions under which the lands can revert to the Durbar when they cease to be applied for the purposes for which they have been acquired.

3. With regard to the first point, the Durbar recognize that transfer of jurisdiction may be necessary for purposes of effective control and they have therefore no objection to transfer jurisdiction on the understanding that such transfer would be temporary and is to continue only so long as the lands are used as a burial and cremation ground for Hindus.

4. On the second point, I am to state that the Durbar regret they are unable to accept the grounds on which exemption from the payment of the annual kandayam on the lands is claimed. These grounds are (1) that on a previous occasion in 1896 when lands were required for a similar purpose, no such payment was demanded and (2) that as the lands are required for a charitable purpose, the payment may be waived. As regards the second of the above grounds, I am to observe that under the rules in force in Mysore, even if the lands had been acquired for a similar purpose on behalf of any local Municipality, such Municipality would not be legally entitled to claim any exemption from payment of the assessment as will appear from the copy of the rules on the subject (Rule XI) attached to this letter for convenience of reference. The duty of providing for burial and cremation as well as for other communal purposes devolves on Municipal Councils at Municipal expense where Municipalities exist even as it devolves on the State in rural parts, where generally very inferior land practically unfit for cultivation is set apart for such purposes. In the present case the Durbar have done all that they may be expected to do in helping the Civil and Military Station Municipality to discharge their duty by offering to acquire for them a land outside the Civil and Military Station limits and make it over to them, and it would be hard measure to require the Durbar to remit assessment and thus indirectly bear a part of the cost, which the Municipality of the Civil and Military Station are bound to incur in the discharge of a necessary obligation. With regard to the precedent quoted, it appears that the lands in that case had been acquired and made over in 1889 and what was done in 1896 was merely to include those lands within the Civil and Military Station limits. It is true that the question of land revenue was not raised either in 1889 or 1896 but this omission cannot affect the general principiles applicable to such cases. As stated in the previous letter, the Municipal Commission have the option of paying the assessment (Rs. 30-2) annually or getting their liability commuted by a lump-sum payment of Rs. 1,023-12-0 whichever may be the more convenient to them.

5. Lastly, with regard to the reversion of the lands when they cease to be used as burial and cremation grounds, the Durbar only expect that jurisdiction over the lands temporarily ceded would be retransferred to the Durbar on the occurrence of such a contingency. The lands can still continue to be in the possession of the Civil and Military Station Municipality unless they themselves elect to surrender them to the Durbar. No question regarding repayment of the value of the lands and the improvements effected thereon can arise.

---

(6) Letter No. 2610, dated the 4th May 1912, from the First Assistant to the Hon'ble the Resident in Mysore:—

With reference to Mr. Balasundaram Iyer's letter No. 820 Pol., dated the 29th March 1912, I am directed to state that the Municipal Commission, Civil and Military Station, have accepted, with thanks, the terms proposed by the Durbar for the acquisition of 24 acres and 19 guntas of land in the Byappanahalli village for a Hindu cremation and burial ground. The estimated cost of the acquisition amounting to Rs. 6,707-4-0 and the annual assessment of Rs. 30-2-0 will be paid by the Commission. I am to request that the Durbar will be so good as to take early steps for the acquisition of the land in question and for its transfer to the Collector, Civil and Military Station, who will in due course place it at the disposal of the Municipal Commission.

Land Revenue, dated 6th June 1912.

2. It is presumed that when the land has thus been transferred, the Durbar will issue a notification assigning jurisdiction therein to the British Government and forward a copy of the notification to this office. If at any time, the land ceases to be used as a burial and cremation ground for Hindus, jurisdiction will be retransferred to the Durbar.

No. R. 7472-74—L. R. 259-10-9, DATED BANGALORE, 6TH JUNE 1912.

ORDER THEREON.—The Government of His Highness the Maharaja are pleased to sanction the acquisition of the land in question, and the Deputy Commissioner of the Bangalore District is requested to take immediate steps to complete the acquisition. The declaration statement will be published in the Gazette.

2. The cost of acquiring the land will be borne by the Civil and Military Station Municipal Commission. The Deputy Commissioner is authorised to place himself in communication directly with the Collector of the Civil and Military Station in the matter and intimate to him the amount awarded as compensation and arrange to receive it and pay it to the parties entitled to receive it without delay.

3. After the completion of the proceedings under the Land Acquisition Regulation, the land will be transferred to the Collector of the Civil and Military Station under the terms of the last of the letters read above, and jurisdiction over it will be assigned to the British Government. If, at any time, the land ceases to be used as a cremation and burial ground for Hindus, jurisdiction will be retransferred by the British Government to the Durbar. A notification to this effect will be published in the Gazette on receipt of a report from the Deputy Commissioner about the completion of the acquisition.

4. The assessment payable on the land, *viz.*, Rs. 34-2-0, need not be written off the accounts, as it will be paid annually by the Civil and Military Station Municipal Commission. A note should be made in the khetwar that the land has been transferred to the British Government and jurisdiction assigned over it as long as it is used for the cremation and burial ground for Hindus.

READ AGAIN—

Government Order No. Fl. 974, dated 11th January 1902, prescribing the forms of security bonds to be taken from certain Revenue Officers required to furnish security under Rule 8 of the Land Revenue Rules.

No. R. 7514-24—L. R. 360-11-4, DATED BANGALORE, 10TH JUNE 1912.

ORDER THEREON.—Government observe that the forms issued with the order read above,which are now in force, are defective in several respects. The forms contemplate only the case of the employee himself furnishing security and alternative forms in which the security is furnished on his behalf by a surety have not been prescribed. Under the Land Revenue Rules as amended by Notification No. R. 1141—L. R. 205-10-3, dated 15th August 1911, immovable properties can no longer be accepted as security and the form of Security Bond No. II relating to the same is therefore redundant. Government are accordingly pleased to issue the following notification prescribing revised forms.

Notification.

No. R. 7525—L. R. 360-11-5, DATED 10TH JUNE 1912.

Under Rule 8 (c) of the Rules under the Land Revenue Code published with Notification No. 264-R. 122, dated 10th July 1901, the Government of His Highness the Maharaja of Mysore are pleased to direct that in lieu of the forms of security bonds prescribed in Notification No. Fl. 974, dated 11th January 1902, the forms appended hereto shall be adopted hereafter.

Letter No. 314, dated the 13th March 1912, from the Deputy Commissioner, Kadur District.

Letter No. 474, dated the 16th March 1912, from the Deputy Commissioner, Mysore District.

No. R. 7941-50—L. R. 332-11-9, DATED BANGALORE, 27TH JUNE 1912.

ORDER THEREON.—The appended Statement A shows that the total estimated Jamabandi for the year 1911-12 under the several heads of revenue is Rs. 1,86,77,733 against Rs. 1,87,36,177, the actual demand for 1910-11. Thus there is a net decrease of Rs. 58,444 as shown below :—

Heads of revenue	Increase + or decrease— as compared with the actual demand for 1910-11.
	Rs
Land Revenue	— 5 818
Forest	—30,180
Abkari	—34,943
Mohatarfa	—10,923
Salt	— 2,511
Miscellaneous	+25,931
Total net Decrease ...	—58,444

Land Revenue.—Under this head there is a net decrease of Rs. 5,818 notwithstanding the increase of Rs. 22,595, Rs. 1,714 and Rs. 766, respectively, in the Chitaldrug, Shimoga and Kadur Districts. In the Bangalore District the decrease, as compared with the previous year, is attributed to the fact that in the previous year there was an exceptional increase owing to the lands in the Mudgere plantation newly made available for cultivation having fetched good prices in auction, while in the Kolar, Tumkur, Mysore and Hassan Districts, the decrease is reported to be due to the increase in the number of absolute relinquishments, fall in the sale proceeds of Government lands, decrease in darkhasts and malki sales. In the Chitaldrug District the large increase of Rs. 22,595 is stated to result from the expansion of cultivation in the Holalkere, Harihar, Jagalur and Chitaldrug Taluks.

3. *Forest.*—The decrease of Rs. 30,180, under this head has been caused by the poor realisations under minor forest produce in all the districts, except Kadur, Kolar and Shimoga. In the latter districts there is an increase of Rs. 61,282, Rs. 10,126 and Rs. 5,698, respectively, under all heads of Forest Revenue.

4. *Abkari*—Under this head, there is a decrease of Rs. 34,943 especially in the Tumkur and Mysore Districts, where it is stated to be due to fall in excise sales.

5. *Mohatarfa.*—The decrease of Rs. 10,923 under this head is chiefly in the Mysore and Kolar Districts and is due to the formation of villages into Unions, in consequence of which this item is transferred to Local Funds.

6. *Salt.*—The decrease of Rs. 2,511 under this head is chiefly in the Mysore and Chitaldrug Districts due to the small number of darkhasts for salt pans on account of insufficient rains.

7. *Miscellaneous.*—Under this head, there is a net increase of Rs. 25,931 chiefly in the Tumkur, Chitaldrug and Kolar Districts.

8. The annexed Statement B gives Talukwar particulars with reasons for important fluctuations.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Forest), dated 27th June 1912.

READ—

(1) Government Order No R 6733-5—Ft 126-10-4, dated 13th June 1911, directing the Conservator of Forests in Mysore to submit detailed proposals for the capture of elephants in the Shimoga District with a view to minimise their depredations.

(2) Letter No. 1344, dated 14th August 1911, from the Conservator of Forests in Mysore, submitting for orders a scheme prepared by the District Forest Officer and the Deputy Commissioner, Shimoga District, for the capture of the elephants.

(3) Communications from the Revenue Commissioner in Mysore ending with his letter No. 11210, dated 4th April 1912, reporting further depredations by elephants in the district and recommending the early adoption of necessary steps towards their prevention.

No. R. 7973-6—Ft. 126-10-11, dated Bangalore, 27th June 1912.

ORDER THEREON.—The last occasion when Khedda operations were conducted in the Shimoga District was in 1894, when 57 animals were captured. After these operations there were no complaints by the raiyats for some years in the matter of the destruction of their crops by elephants. But since 1905 the complaints have been revived and have been steadily increasing year after year.

2. Several inexpensive palliative measures attempted from time to time to check the ravages of the elephants have not proved successful in securing the desired object. In view of the repeated complaints of the raiyats and of the extensive damages reported frequently, the Government consider that the time has now arrived when some effective steps should be taken to put an end to the ravages of these wild animals and safeguard the interests of the cultivating raiyats.

3. The Deputy Commissioner of Shimoga has proposed the starting of Khedda operation at Huliyappana Handi Kanave in the Belandur Forest and in the valley between Hiregudda and Nagarkalyan in the Chendragutti Forest, at an estimated cost of Rs. 10,000. The Conservator of Forests considers that there are several difficulties in the way of success of the scheme of operations as devised by the Deputy Commissioner and District Forest Officer, and that the local villagers and shikaris, untrained as they are, may not possess the required resources or be able to give the necessary help and that the capture of the scattered herds is only possible under the "maidan system." He is of opinion, however, that the operations proposed by the District Forest Officer and the Deputy Commissioner may be tried though the estimated cost according to his calculation cannot be less than Rs. 12,000 and that the conduct of the entire operations may be vested in the Deputy Commissioner. He adds that he will readily afford any help that may be required of him by the Deputy Commissioner in the matter.

4. The Government consider that though the "maidan system" suggested by the Conservator is perhaps the more satisfactory one, it is a comparatively expensive undertaking costing from Rs. 30,000 to Rs. 44,000 and that it does not afford adequate expectations of a large capture of elephants to recoup the cost incurred. The proposals of the Deputy Commissioner appear to be fairly well conceived and are moderate in cost, and it is hoped that the operations will be attended with success, the Deputy Commissioner availing himself of the help promised by the Conservator of Forests to all possible and necessary extent.

The Government are, in view of these circumstances, pleased to sanction the starting of Khedda operations in the Shimoga District to be carried out by the Deputy Commissioner on the lines suggested by him, at an estimated cost of Rs. 10,000, the required provision being made in the coming year's budget.

Government Order No. Fl. 2254-63—S. R. 24-11-4, dated the 21st November 1911, laying that sanctions given by Deputy Commissioners for the refund of the value of stamps do not require renewal by Government under Article 293 of the Civil Account Code, but may be given effect to, subject to the provision contained in Article 5 of the said Code.

2. Letter No. 4308-684, dated the 25th January 1912, from the Comptroller, Mysore Government, explaining, with reference to the above order, that Article 5 (c) of the Civil Account Code does not apply to the cases of the kind.

NO. FL. 5539-47—S. R. 143-11-2, DATED BANGALORE, 24TH JUNE 1912.

ORDER THEREON.—On a further consideration of the case, Government are of opinion that a claim to the refund of stamp revenue becomes due when the Deputy Commissioner or other competent authority sanctions the refund. In cases where the refund is not claimed within one year the sanction should be renewed by the officer who sanctioned the refund in the first instance by a fresh order. In special circumstances, the old order may be acted upon under the orders of the Comptroller obtained under Article 5 (*b*) of the Civil Account Code. In either case it will be a sufficient authority for the Treasury Officer to make payment. But as the latter course entails correspondence and delay which cannot be avoided, Government consider it desirable that in cases of lapses of this kind, the officer competent to sanction the refund should himself renew the sanction.

2. This order supersedes that of the 21st November 1911 referred to in the preamble.

Office Memo No. J. 1232-9—Cts. 182-10-1, dated the 15th October 1910, calling for the notes of inspection by District Magistrates of all the Courts of Assistant Commissioner and 1st Class Magistrates in their respective districts.

2. Communications from the District Magistrates in reply to the above.

No. J. 3722-30—Cts. 182-10-15, DATED BANGALORE, 24TH JUNE 1912.

ORDER THEREON.—The inspection reports submitted by the District Magistrates disclose a number of irregularities, the more important of which are mentioned below:—

(i) The Courts of Assistant Commissioner Magistrates are not inspected at regular or frequent intervals. There are instances of Courts which have not been inspected by any superior officer for years.

(ii) As may be expected from this laxity, there has been a lack of promptitude in the disposal of cases by Magistrates; and

(iii) Laxity of supervision over the office has resulted in laxity in the administration of stamp rules, disposal of property, assortment of records and recovery of fines.

2. In the Bangalore District, in three of the cases instituted in the Court of the Assistant Commissioner in charge of the Dodballapur Sub-Division, compensation amounts recovered in August and September 1908, have not yet been paid to the complainants and in the Court of the Closepet Sub-Division Magistrate several unclaimed properties are pending disposal since 1904.

3. In the Special Magistrate's Court, Kolar Gold Fields, cases against certain persons who have absconded and whose whereabouts are not known, have been adjourned *sine die* without being struck off the file as required by the Rules of Practice.

4. In the Tumkur District, in the Court of the Gubbi Sub-Division Magistrate, the form of the cash register has not been altered according to the latest Chief Court Circular, although the District Magistrate drew the attention of the presiding officer to it in the course of his inspection of the Court. The work of disposing of property produced in the Court is also in arrears.

5. In the Mysore District, the Court of the Assistant Commissioner of the French Rocks Circle was not inspected between 1899 and 1911 and the last inspection has brought to notice several irregularities in the way registers are maintained. In some cases, the manner in which properties have been disposed of cannot be made out. A sum of Rs. 80 brought on the cash register on the 14th December 1908, and said to have been kept in the cash chest is not forthcoming. The result of the enquiry which the District Magistrate of Mysore has ordered should be reported to Government, through the Chief Court. In the Nanjangud Sub-Division Magistrate's Court, some of the stamps on the documents are reported to be missing, and in two cases stamps of less value than is entered in the register are found in the records and several cases of stamps not punched are brought to notice. In the City Magistrate's Court at Mysore, very long adjournments have been granted and property consisting of several gold coins is reported to have been made over by the Head Munshi of the Court to two lads without their identity being established.

6. In the Hassan District, in the Court of the Channarayapatna Sub-Division Magistrate, the average duration in the disposal of cases is high and the reasons assigned for the extraordinary delay of nearly three years in the disposal of case No. 68 of 1907-08, afford interesting reading. Considerable delay is also noticed in the disposal of properties both in the Saklespur and the Treasury Assistant Commissioner Magistrates' Courts.

Judicial and Legislative (Courts), dated 24th June 1912.

7. In the Court of the Assistant Commissioner Magistrate of the Shimoga Division, there is much laxity in the disposal of cases and in one case the delay resulted in the parties taking the law into their own hands. In another case, the original order of the disposal of property by the Magistrate is missing. In the Sagar Sub-Divisional Magistrate's Court, frequent adjournments have been granted in a large number of cases.

8. In the Kadur District, there is a heavy arrear of fines unrecovered and an item of Rs. 300 is pending recovery for over six years. The records of the Courts of the Treasury Assistant Commissioner Magistrate and the Sub-Division Magistrate are retained in the Courts without the indexes being written up and sent to the Judicial Record Room of the District Office.

9. In the Chitaldrug District, the records of the Davangere Sub-Division Magistrate's Court remain mostly unassorted and indexes have to be written up in many of the appeal cases. The records of the Court of the Treasury Assistant Commissioner Magistrate have not been divided into parts.

10. On a careful perusal of these reports, Government are of opinion that inspection of Courts of Assistant Commissioner Magistrates, by District Magistrates, once a year at lest is essential. The Chief Court is accordingly requested to see that this work is carefully and regularly done by the District Magistrates.

Letter No. 7093—682, dated the 31st May 1911, from the Inspector-General of Police in Mysore, submitting proposals for the increase of Police force on the Kolar Gold Fields:—

"I have the honor to forward herewith copies of letter No. C. 176, dated 13th April 1911, and of its enclosures from the Deputy Commissioner, Kolar District, submitting proposals for the increase of Police force in the Kolar Gold Fields urgently needed owing to the rapid development of the gold mining industry for the past 6 years.

2. The Police force of the Kolar Gold Fields was organized in the year 1902 (*vide* Government Proceedings No. 12192-95—J. 984, dated 23rd January 1902, and an additional force of 20 constables was subsequently sanctioned in the year 1905) for the newly opened Robertsonpet Police Station. (*Vide* Government Proceedings No. 2519-20—Police 83-3, dated 6th March 1905.) Since then the population has considerably increased and this being a floating one requires greater vigilance on the part of the police to maintain law and order among them.

3. From the comparative statement showing area, population, etc., of certain cities in Mysore and Madras, it will be seen that the proportion of policemen to population is much less in the Kolar Gold Fields, than the Cities of Bangalore and Mysore, though the population is only about 5,000 less than the Bangalore City. I may be permitted here to observe that the Kolar Gold Fields cannot be compared with the cities of the same population as situations and conditions are different. The Kolar Gold Fields has mostly low class of people who are addicted to the commission of offences and especially thefts for which there is ample temptation in the Fields.

4. The Deputy Commissioner proposes the following additional force to the existing sanctioned strength:—

		Rs.
3	Head Constables, 1st grade, at Rs. 25 + 10, each ...	105
1	Do 2nd grade at Rs. 20 + 10 each ...	30
15	Constables, 1st class, at Rs. 9 + 4 each ...	195
25	Do 2nd class at Rs. 8 + 4 each ...	300
	Good conduct allowance ...	10
	Per mensem Total ...	640
	or per annum ...	7,680
	Equipment and clothing for the additional force ...	600
	Total ...	8,280
	Cost of building quarters for the additional force ...	23,200

The proposal involves an additional annual recurring expenditure of Rs. 8,280, besides a lump sum of Rs. 23,200 for quarters for officers and men.

5. This question was engaging my attention for the last two years and I have on more than one occasion visited the Fields and have discussed the question with the Deputy Commissioner and the District Superintendent of Police. There is every necessity for the augmentation of the force on the Fields and I perfectly agree with the Deputy Commissioner in his view and fully support his recommendation.

6. I request that you will be so good as to move the Government to sanction the above proposal, the expenditure being transferred to the "charges against mining revenue."

Letter No. C. 176, dated 13th April 1911 from the Deputy Commissioner, Kolar District, to the Inspector-General of Police in Mysore:—

"I have the honor to submit for early action certain proposals for the augmentation of the Police force on the Kolar Gold Fields, which is urgently needed owing to the rapid development of the gold mining industry during the past six years, so that the extra work devolving on it may be efficiently carried out.

2. The last increase in the force was in the year 1905 (*vide* Government Proceedings No. J. 2519-20—Police 83-3, dated the 6th March 1905), but this was only for the newly opened station of Robertsonpet which was strengthened by 20 constables. It was in the year 1902, that the whole force was re-organized (*vide* Government Proceedings No. 12192-95—J. 984, dated the 23rd January 1902) and, among other changes, 40 additional constables were sanctioned.

3. Government in para 3 of the last quoted proceedings observe as follows:—"Government are satisfied that this augmented force is absolutely necessary, as the people the Police have to deal with, are of a most promiscuous kind and have congregated from various parts of the neighbouring British Districts. Thefts of gold would seem to have been as much the object of their residence in the Field as labour and a close and vigilant watch is the first condition of success for all preventive and detective measures." This observation carries just as much weight and even more now as, since then, the population has considerably increased and more watching is needed. In consequence of such large increase in the population, many more buildings, which have to be safeguarded, have arisen, and numbers of labourers working on the Mines have been driven to seek accommodation in the surrounding villages and the Government Cooly Colonies which have also extended in area. Out-posts in the thickly populated Masikam and Urigam village Cooly Colonies are badly needed as they are at a considerable distance from the existing Police stations and have a low class population who are so susceptible to cause disturbances that serious crime against both persons and property is not infrequent.

4. The Mysore Mines and Police Regulations have been introduced into the area in recent years and it must always be borne in mind that, unlike settled cities, the population is a purely floating one with no vested interests in the place and for proportion of bad characters will, I venture to say, easily outdo any other part of India. One of the principal duties of a Police force is to maintain law and order and undermanned force is therefore a constant menace and source of danger to the public peace. A small detachment of one Naik and ten men of the Special Reserve Police are, however, attached to the Gold Fields, but they are so frequently absent on other duty that they cannot be depended on as a permanent unit, nor will it at all be equal to the occasion, should any untoward contingency arise. Since the year 1902, the Gold Mining Companies have very largely increased a valuable auxiliary to the Police on the Gold Fields, their watch establishment which now costs them nearly a lakh of rupees annually to maintain. Were it not for this establishment the position of affairs whould be deplorable, as the bulk of the actual working places are watched by them day and night.

5. Turning now to the number of additional officers and men required and bearing in mind that half measures are better left undone, I would recommend the following as the minimum strength now absolutely necessary. The stations that require strengthening are Champion Reefs, Marikuppam and Urigam. I would attach an extra Head Constable to each of the latter and two Head Constables to Champion Reefs. With regard to the constables, I would recommend the following:—

Champion Reefs	6	first class	10	second class	...	16
Marikuppam	4	,,	7	,,	..	11
Urigam	5	,,	8	,,	...	13
Total	15		25			40

Marikuppam has, in addition to the most important Gold Mining Company on the Fields, the Mysore Mines, the Belganhalli, Cooly Colony and no less than 43 villages within its limits and the jurisdiction for beat duty on the mining area proper is also very extensive.

Champion Reefs has the Mine of the same name, Stephen's Camp and the troublesome Masikam and Chamarajpet Cooly Colonies. An out-post of three men with one of the extra Head Constables should be placed in charge here.

Urigam also has the Mine of the same name as well as the Nandydroog, Tank Block and Oriental Mines and from the additional men recommended an out-post has to be opened between Urigam village and Urigam Cooly Colony, as it is very badly wanted.

6. The total strength of constables, etc., for these three stations is 121, of which 66 are required for night patrol work alone, of the balance of 55 men, 33 are required for daily fixed duties, which never vary, such as, orderlies, station writers, sentries, K. D. duty, serving processes and Court duty, etc. Of the remaining 22 men, experience has shown that about 16 must be allowed for casualties such as, leave, vacancies, sickness, absence, suspension or Police Training School, etc. It leaves only 6 men at 3 stations for various other duties of a miscellaneous nature that continually occur in a Police station, and there is no margin available for day patrol duty at all.

7. The Kolar Gold Fields Police has no Reserve Force and, according to the recommendation of the Indian Police Commission there should be at headquarters 15 per cent of the force to allow for a Reserve. On this basis, 26 men are required for the existing force of 186 men and my recommendation is for 40 men, not for a Reserve, but for *actual current police work.*

Judicial and Legislative (Police), dated 24th June 1912.

8. I attach a statement giving the population of the Kolar Gold Fields, as well as 6 other cities, as per Census of 1901 and 1911, as well as area, proportion of Police to area and population and a comparison of the number of officers and men. From a reference to this it will be seen that the Kolar Gold Fields, comes last in the actual number of officers and men and also does not compare favorably in the proportion of Police to area and population, although the populations are of a widely different class, being not only not settled but having a large percentage of criminals. A more glaring contrast is observable when a comparison of the number of Head Constables is made, for while the average for the 6 cities works out at 42, the Kolar Gold Fields has only 18 of this class of officers. This, of course, means that there cannot be the same amount of supervision here as in the cities mentioned, more particularly, over night beats.

Given the same proportion of Head Constables to men as in these cities, it would be possible to have every beat at night in charge of a responsible Head Constable with, naturally, vast better results in the work of prevention of crime; and my recommendation is for only 4 more Head Constables which will bring the total up to 22. The increase in the Police force as herein recommended, would enable it to show improved work all round and would also permit of men being deputed during the day at important points such as chowks, jatka stands, etc., which is done in all other places, but which, with our present force, is quite impossible, and this drawback has been keenly felt in recent times.

9. The additional cost involved will amount to a sum of Rs. 7,680 per annum (or Rs. 640 per mensem) for the Head Constables and men. Accommodation would have also to be provided at a cost of a lump sum of about Rs 23,200. A statement in detail, showing the present and proposed scale, is attached. I would also recommend that the present good service allowance of Rs. 90 per mensem be raised to Rs. 100 per mensem in view of the larger number of men proposed, also Rs 600 per annum for clothing.

10. Referring to the population of 83,721 on the Gold Fields as per recent Census, it has to be borne in mind that, owing to the outbreak of plague just prior to the taking of the Census, a very large number of people had emigrated to different parts of the country so that in reality, the population has to be taken at well over 1,00,000, or an increase of over 25 per cent of the population of 1901. In addition to this it is calculated, by reason of the extra trains put on by the Railway Company, that another 20,000 people come into this area, in normal times, a week prior to the monthly pay day and leave shortly after it.

11. Complete plans and estimates of the proposed buildings are also attached for information."

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. J. 3756-8—Police 230-10-4, dated Bangalore, 24th June 1912.

Order thereon.—The Police Force of the Kolar Gold Fields was organised in 1902, and an additional force of 20 constables was subsequently sanctioned in 1905, for the newly opened Police Station at Robertsonpet. Owing to the steady and rapid development of the Gold Mining industry and the considerable increase in the population which is largely a floating one, with a large percentage of criminal classes, the present Police Force of the place has been found to be inadequate for the efficient maintenance of law and order and an increase in its strength is urgently called for. Government are accordingly pleased to sanction the Inspector-General's proposals for the entertainment of an additional establishment of four Head Constables and 40 constables as noted below:—

		Rs.
3 Head Constables, 1st grade, at Rs. 25 + 10	...	105
1 Head Constable, 2nd grade, at Rs. 20 + 10	...	30
15 Constables, 1st class, at Rs. 9 +4	...	195
25 Constables, 2nd class, at Rs. 8 + 4	...	300
Total	...	630
Good conduct allowance	...	10
Total per mensem	...	640
or per annum	...	7,680
Equipment and clothing	...	600
Total	...	8,280

2. Necessary provision should be made in the budgets of the Police Departments for the year 1912-13 and the succeeding years for the extra recurring expenditure of Rs. 8,280 per annum.

3. The Chief Engineer of Mysore is requested to provide a sum of Rs. 23,200, in the next year's Public Works Budget for the quarters of officers and men and to see that the work is carried out expeditiously.

Letter No. 7217-8—533, dated the 8th March 1912, from the Inspector-General of Education in Mysore, submitting the Village School Fund Budget for 1912-13, with an explanatory memorandum.

MEMORANDUM.

Receipts.

The estimate of receipts for 1912-13 shows an increase of Rs. 1,768 over that sanctioned for the current year. The increase occurs under two items, *viz.*, School fees and Examination fees. The abolition of School fees in all Village Elementary Schools and in the Primary Classes of Anglo-Vernacular Schools, came fully into effect during the year 1908-09, when the study of English was also made compulsory in all Anglo-Vernacular Schools, from the third class upwards. The amount of fees actually collected during the two subsequent years gives an average of more than two thousand rupees for each year and consequently the receipt under this head is raised from Rs. 1,032 to Rs. 1,800 or by Rs. 768, as a first step. Similarly the average amount of fees per year actually realised from examinees and remitted into the Treasury during the past three years was Rs. 15,400 and therefore the income from this source is raised from Rs. 14,000 to Rs. 15,000. The receipts from other sources remain unaltered.

Expenditure.

The estimated expenditure for 1912-13 is less than that sanctioned for 1911-12 by Rs. 5,368. This decrease is due to the following variations :—

I. Instruction, General.—The decrease under this head is only Rs. 8. Lump sums of Rs. 4,998 and Rs. 5,000 have been provided in the current year's budget for additional hands, new schools, increase of pay to teachers, etc. Out of these amounts 55 new schools at an annual cost of Rs. 9.990 were opened as per orders conveyed in Nos. 7003-4—Edn. 180-10-3 and 277-2—Edu. 92-11-2 of 22nd February and 17th October 1911, respectively. The balance of Rs. 8 is now omitted.

II. Grants-in-aid.—The omission of Rs. 480 under this head is on account of the allowance of the Magic Lantern Exhibitor, whose services have been dispensed with as ordered in Government Order No. 2862-3—323-10-4 of 24th October 1911.

III. Scholarships.—There is no alteration under this head.

IV. General.—The provision of Rs. 50,000 sanctioned during the current year for village school buildings is repeated as liberal allotment for such expenditure will be necessary for some years more.

V. Local Examinations.—An additional sum of Rs 120 is provided on account of the increment of pay to the Manager of the Mysore Local Examinations. The special allotment of Rs. 5,000 sanctioned by Government Order No. 696-7—8-10-5 of 24th July 1911, for the purchase of furniture required for certain Examination centres during the current year is omitted.

Summary.

The Budget Estimates provide for receipts amounting to Rs. 3,29,990 and expenditure amounting to Rs. 3,71,023. The receipts have to be increased by Rs. 5,000 already asked for in order to open new village elementary schools during the ensuing official year and the expenditure by such an amount as Government may be pleased to sanction on account of additional expenditure, required for schools in the shape of additional teachers and menial servants, increase of pay to the existing staff, rents and contingencies. Proposals for these charges have already been submitted to Government in connection with the next year's budget. The excess of expenditure over income may, as usual, be ordered to be met from the cash and funded balances at the credit of the Village School Fund.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. 9680-1—Edn. 287-11-2, dated Bangalore, 19th June 1912.

Order thereon.—The Inspector-General estimates the receipts and expenditure of the Village School Fund for 1912-13, as shown below :—

	Sanctioned estimates for 1911-12	Proposed estimates 1912-13	Difference
	Rs.	Rs	Rs.
Receipts ...	3,28,222 ...	... 3,29,990 ...	... +1,768
Expenditure ...	3,76,391 ...	... 3,71,023 .	... —5,368

2. A sum of Rs. 5,000 has been included in the Education State Fund Budget for 1912-13, on account of contribution to the Village School Fund for opening new village elementary schools in 1912-13, and a sum of Rs. 5,172 has been sanctioned as a grant-in-aid from the State Fund to the Village School Fund for additional charges for the Village Fund Schools during 1912-13. Therefore the receipts proposed by the Inspector-General of Education will be raised by Rs. 10,172. The total estimated receipts will thus be Rs. 3,40,162.

3. The expenditure estimated by the Inspector-General of Education, *viz.*, Rs. 3,70,123 provides for all the ordinary and sanctioned charges. For village school buildings the provision of Rs. 50,000 sanctioned for 1911-12, has been repeated and it will be allowed to stand. The following charges sanctioned since the receipt of the budget, amounting to Rs. 10,184, will be added to the expenditure estimated by the Inspector-General, making a total of Rs. 3,81,207.

	Rs.
1. For opening new village elementary schools during 1912-13 ...	5,000
2. Local allowance to a teacher at Re. 1 per mensem sanctioned in Government Order No. 7000-1—Edn. 276-11-2, dated 26th March 1912	12
3. Additional charges for Village Fund Schools sanctioned in Government Order No. 9601-2—Edn 213-11-2, dated 14th June 1912	5,172
Total ...	10,184

4. With these remarks the Village School Fund budget estimates for 1912-13 are passed providing for an income of Rs. 3,40,162 and an expenditure of Rs. 3,81,207, the excess of the expenditure over the receipts being met from the cash and the funded balances at the credit of the Fund.

5. The details of the budget are given in the accompanying statement, an abstract whereof is given below :—

READ—

Letter No. 7024—512, dated the 29th February 1912, from the Inspector-General of Education, submitting the Budget Estimates of the Industrial and other Special Schools in Mysore for 1912-13 with an explanatory memo.

MEMORANDUM.

Accompanying the Budget Estimates of the Industrial and other Special Schools in Mysore for the year 1912-13.

Preliminary remarks.

As explained in para 1 of this office letter No. 6524—458 of the 10th instant, the present estimates exclude the Pottery section of the Industrial School which is being worked as a separate branch of industry by the Managing Committee out of the sum of Rs. 10,000 placed at their disposal by Government Order No. 2170-1—Edn. 330-10-11 of 4th September 1911. Consequently in the sanctioned estimate of receipts for 1911-12, the amount of Rs. 7,000 provided for the Pottery and Modelling class is omitted, while in the estimate of expenditure the sum of Rs. 10,000 referred to above as well as the special provision of Rs. 8,300 sanctioned for a chimney, motor engine and other items is left out.

(*A*) *Receipts.*

Major Head. I. *Industrial School, Mysore.*—The sanctioned estimate for 1911-12 provided for a sum of Rs. 10,450 under receipts, exclusive of the pottery section. It is now raised to Rs. 11,230 or by Rs. 780. The increase of Rs. 250 in the income from the Rattan Class and of Rs. 30 under fees and miscellaneous receipts is justified by actual receipts of the present and the previous years. For a similar reason the income from the Smithy and Machine Class is reduced by Rs. 500. The increase of Rs. 1,000 under carpentry may also be admitted as it is reported that the actual receipt in 1910-11 would have been more than Rs. 8,000 if all the demands with the other departments had been adjusted. The estimate will have to be modified if the recommendation for the opening of new branches of industry is sanctioned by Government.

II. *Other Industrial Schools.*—The total income under this head has been raised from Rs. 4,000 to Rs. 4,700 and this is justified by actual receipts for the last three years, the income for 1910-11 being Rs. 5445-4-11. As in the case of the current year, the average for three years of the amounts actually paid into the Treasury is taken for each school.

III. *Engineering School, Mysore.*—The income from school fees for 1912-13 is estimated to be Rs. 1,224 as against Rs. 1,032 sanctioned for the current year. The details are as given below:—

Class	Number in the class	Scholars, free students and shekdars not paying fees	Paying students	Rate of fees	Amount per mensem	Amount per annum
				Rs.	Rs.	Rs.
1. Senior class	20	3	17	4	68	816
2. Junior class	20	3	17	2	34	408
Total ...	...	...	...	...	...	1,224

This estimate will have to be modified if the proposals for the revision of the rates of free studentships and scholarships as well as the lengthening of the course of studies is sanctioned by Government.

The total estimate of receipts under the three heads named thus amounts to Rs. 17,154 as against Rs. 15,482 sanctioned for the year 1911-12.

(*B*) *Expenditure.*

Proposals for additional charges for the Mysore Industrial and Engineering Schools have already been submitted and a recommendation will be shortly made in the case of the other Industrial Schools. But in the mean time provision is made for the items of expenditure actually sanctioned by Government.

Proceedings of the Government of His Highness the Maharaja of Mysore,

I. *Industrial School, Mysore.*—As the Pottery section has been left out of calculation, the figures of expenditure for the other departments of the school remain unaltered.

II. *Other Industrial Schools.*—The provision under this head remains the same as during the current year, except that a sum of Rs. 180 provided on account of house rent for the Industrial School at Channapatna is omitted as the school has been removed to the Government building constructed for it.

III. *Engineering School, Mysore.*—In this case also there is not much alteration. The allowance of Rs. 50 per mensem to the Head Master is omitted as per instructions contained in Government Order No. 5702-4—Edn. 190-10-5, dated the 15th February 1912. The amount provided for instruments and models has been reduced by Rs. 100, but the other items remain unchanged for the present.

IV. *Scholarships held in Technical Schools outside the State.*—As usual provision has been made for the normal number of 30 scholarships, *viz.*, 1 at Rs. 40, 1 at Rs. 35, 25 at Rs. 20 and 3 at Rs. 15. There are in force now 16 scholarships of Rs. 20, including 5 to be renewed, 3 of Rs. 15, 1 of Rs. 40 and 1 of Rs. 35, with 9 vacancies. Of these scholarships 1 at Rs. 20 will become vacant at the end of December next as the scholar will complete his third year course. If 10 new scholarships are to be awarded during the next academical year, provision has to be made actually for 39 scholarships. If the 9 vacancies which are referred to above and for which applications have been received, are filled up, there will be need for providing 9 extra scholarships in the next year's budget. This is owing to the fact that the course in the Victoria Jubilee Technical Institute, Bombay, has been lengthened from three to four years and consequently some of the scholarships tenable in that institute have to be continued, during the fourth year. A separate reference on this subject will be made in due course. But for the present, provision has been made only for 30 scholarships at the rates referred to. This will cause an increase of Rs. 215.

V. Grants-in-aid.

VI. Sericulture.

VII. Travelling allowance to the Superintendent of the Mysore Industrial School.—There is no alteration under these heads.

VIII. *Purchase of publications by the Industrial Schools Committee.*—This item was specially sanctioned and provided in the budget of the current year. It is now omitted.

Concluding remarks.—The estimates thus provide for receipts amounting to Rs. 17,154 and expenditure amounting to Rs. 70,865 as against receipts and expenditure amounting to Rs. 15,482 and Rs. 72,030, respectively, estimated and sanctioned for the year 1911-12. The figures under receipts as well as expenditure are subject to alteration after the additional items of expenditure are sanctioned.

No. 10077-9—Edn. 272-11-2, dated Bangalore, 27th June 1912.

Order thereon.—The Inspector-General estimates the receipts and expenditure of the Industrial and other Special Schools maintained from Local Funds General for 1912-13 as shown below :—

	1911-12 Rs.	1912-13 Rs.	Difference Rs.
Receipts	15,482	17,154	+1,672
Expenditure	72,030	70,865	—1,165

2. The Pottery section of the Mysore Industrial School has been separated and placed under the supervision of a Committee by Government Orders No. 9970-1—Edn. 330-10-2, dated 1st June 1911 and No. 2170-1—Edn. 330-10-4, dated 14th September 1911. The sanctioned receipts and expenditure for the Pottery section for 1911-12 were Rs. 7,000 and Rs. 18,300 respectively. Deducting these amounts from the total sanctioned receipts and expenditure for 1911-12, *viz.*, Rs. 22,482 and Rs. 90,330, the income and expenditure for 1911-12 have been given as Rs. 15,482 and Rs. 72,030.

3. Under the receipts from the Mysore Industrial School, the values of articles manufactured in the carpentry class and of those manufactured in the blacksmith and machine class are estimated at Rs. 7,500, and Rs. 2,500, respectively, while the actuals for 1910-11 are only Rs. 4,666-12-8 and Rs. 1,674-3-9. The estimated receipts under these heads for 1912-13 are therefore reduced to Rs. 6,000 and Rs. 1,800 respectively.

Local Fund and Sanitary (Education), dated 27th June 1912.

4. The expenditure estimated, *viz.*, Rs. 70,865 provides for the ordinary charges and the variations are fully explained in the Inspector-General's memo. To this a sum of Rs. 4,506 will be added on account of the following charges making a total of Rs. 75,371.—

Additional charges for the Engineering School sanctioned in Government Order No. 7357-8—Edn. 218-11-2, dated the 6th April 1912	Rs. 636
Additional charges for the Mysore Industrial School sanctioned in Government Orders Nos. 9476-7—Edn. 255-11-5 and 9492-3—Edn. 255-11-6, dated the 12th June and 13th June 1912 respectively	Rs. 3,295
Additional charges for other Industrial Schools sanctioned in Government Order No. 9501-2—Edn. 266-11-2, dated the 6th June 1912	Rs. 575
Total	Rs. 4,506

5. With these remarks the Budget Estimates of the Industrial and other Special Schools in Mysore for 1912-13 are passed providing for an income of Rs. 15,000 and an expenditure of Rs. 75,371 as per details given in the accompanying statements, an abstract whereof is given below:—

(7) Letter No. 2531, dated the 30th March 1912, from the Chief Engineer of Mysore, submitting the draft of revised rules for the regulation of water supply from the water works, both of Bangalore and Mysore, together with the opinions of the Municipal Councils of the Bangalore and Mysore Cities.

No. 766-71—5269-74, DATED BANGALORE, 29TH JUNE 1912.

ORDER THEREON.—The existing rules for the regulation of water supply in the cities of Bangalore and Mysore were framed nearly fourteen years ago and there has been considerable increase since both in the quantity of water consumed and in the number of house connections. It has, therefore, become necessary to revise the rules in the light of the experience gained in order to ensure more effective control of the supply.

2. The following are some of the principal changes introduced in the revised rules :—

(1) To ensure the economical use of the water, the supply given for municipal purposes will be charged for at concession rates.

(2) The supply of water for non-domestic purposes is authorised under conditions which will be fixed by the Water Supply Department.

(3) The limit of annual rental value which entitles a house to a pipe connection has been lowered from Rs. 120 to Rs. 100.

(4) The minimum free allowance of water has been raised from 3,000 to 4,000 gallons per month.

(5) House service pipes may be laid by private plumbers who will be licensed for the purpose.

(6) A nominal charge of 4 annas per month will be levied as the hire for meters fixed to house connections in accordance with general practice elsewhere.

(7) The collection of excess water charges which is now done by the Municipality will in future be entrusted to the Water Supply Department.

(8) New rules have been added with a view to enable house owners to get timely redress in cases of inaccuracy of meter readings, etc., and also to establish proper business relations between the Water Supply Department and the public.

(9) The cases in which the power vested in the Water Supply Department to cut off house connections may be exercised, have been clearly defined.

Proceedings of the Government of His Highness the Maharaja of Mysore,

3. With the foregoing observations, Government are pleased to sanction the revised rules as per two notifications attached and to direct that they be brought into force, from 1st August 1912, in the cities of Bangalore and Mysore, respectively.

4. Orders will issue separately as regards the additional establishment required for the collection of excess water and other charges levied under these rules.

NOTIFICATION.

PUBLIC WORKS.

No. 772—5275, dated 29th June 1912.

The Government of His Highness the Maharaja of Mysore are pleased to sanction the following revised rules for the regulation of the water supply from the Chamarajendra Water Works, Bangalore City, with effect from 1st August 1912.

By Order,
M. VISVESVARAYA,
Secy. to Govt., P. W. D.

CHAMARAJENDRA WATER WORKS, BANGALORE CITY.

Revised rules for the regulation of water supply.

1. The Water Supply Department is responsible for all work connected with the water supply to the City of Bangalore.

2. The expression "WATER SUPPLY DEPARTMENT" as used in these rules shall, until further orders, mean "the Executive Engineer, Water Supply and Stores Division" at Bangalore, hereinafter called the "Executive Engineer," working under the orders of the Chief Engineer and Secretary to Government of Mysore in the Public Works Department, or any agent duly authorized by the Executive Engineer.

3. The supply of water from the Chamarajendra Water Works is intended for *bonâ fide* domestic purposes and the water drawn therefrom whether from public fountains and taps or from private service pipes shall not be used for any other purposes whatsoever without obtaining sanction in writing from the Executive Engineer. A supply of water for domestic purposes shall not include a supply for horses or for washing carriages, where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture or business or for fountains or for any ornamental or mechanical purposes or for watering roads or gardens. Water may be drawn for watering public roads and flushing drains from metered fountains and connections specially provided for the purpose at the cost of the Municipality. The quantity of water so drawn shall be paid for by the Municipality at half the rates charged to house owners.

4. Water for other than domestic purposes may be supplied with the special sanction of Government under conditions to be determined by Government.

Public Works, dated 29th June 1912.

5. No water cart will be allowed to take water from public fountains other than those specially set apart for the purpose by the Water Supply Department and indicated as such by notice boards, provided that the water is used for *bonâ fide* domestic purposes and is not drawn direct into the cart and provided also there is no inconvenience to the public.

6. As far as practicable, stand-posts will be erected from 600' to 1,000' apart, the interval varying according to the density of the population in the locality.

7. Applications for attachments from the public mains are to be made in the prescribed form to the Executive Engineer, who is authorized of himself to comply with such requisitions by owners of property, who are required to lodge with him or his agent the cost of the attachment as specified below. In other cases, the special sanction of the Chief Engineer will have to be previously obtained.

(*a*) The fees to be paid in advance for making attachment shall be as follows:—

	Rs.	a	p
½" attachment or less	1	8	0
¾" do	2	0	0
1" do	2	8	0

(*b*) When an attachment has to be temporarily closed at the request of the owner, a charge shall be made at half the above rates to be paid in advance, which shall include the cost of closing and reopening the attachment.

8. Until further orders, private house service connections will be limited to houses whose annual rental value is Rs. 100 and to localities where the capacity and pressure of the public water mains permit of a supply being given without detriment to the street service.

9. Service pipes to private properties shall be laid only by plumbers duly licensed by the Executive Engineer on approved plans and specification under conditions and rules sanctioned by the Chief Engineer. The final connection between the private service pipes and the public water mains shall not be allowed until the work is inspected and passed by the Executive Engineer or his authorised agent.

(*a*) No alteration or extension shall be allowed without obtaining the sanction of the Water Supply Department and such work shall be carried out only by licensed plumbers.

(*b*) Repairs may, however, be carried out by owners of property after giving intimation to the Executive Engineer of the nature of repairs to be done, the work being entrusted to licensed plumbers only.

10. For every house connection, there shall be provided at Government cost and maintained in due working order, a water meter for the accurate gauging of the water consumed, provided that the Executive Engineer may, on the ground of cost, dispense with the erection of water meters in the case of very small houses not likely to consume more than the free allowance referred to in Rule 11 below.

(*a*) For all connections where a water meter is fixed a charge of four annas per month shall be levied as rent for the water, in addition to whatsoever charge may be due for the water consumed, provided that for the periods when the meter is out of order no rent shall be charged.

(*b*) The meters shall, wherever practicable, be placed inside the compound or premises of the owner of a house or property, who shall be held responsible for any wilful damage to the meter, and shall be liable to pay the cost of making good such damage, provided the Executive Engineer, subject to appeal to his next superior, decides that the damage has been wilful.

11. The quantity of water which any owner of a house or property will be allowed to draw from his house connection free of any charge (other than the general water rate to be assessed upon the annual rental value of his house and premises) shall be regulated in accordance with the following scale:—

"For every one rupee of the rental value of the house and premises, the authorised free allowance shall be 160 gallons, but in no case shall such free allowance be less than 4,000 gallons per month."

12. Any owner of a house or property who is found to have used in any quarter a quantity of water in excess of the quantity allowed free under the last preceding rule, shall pay for such excess a price calculated at the rate of 12 annas per 1,000 gallons.

In calculating the excess charges under this clause, the quantity of excess on any whole number of thousands of gallons shall not be charged for if it is 500 gallons and under, but shall be charged for as if it were 1,000 gallons when it is over 500 gallons.

13. The excess water rate, meter rent and other charges due under these rules are to be collected by the Executive Engineer or his authorised agent, quarterly on bills prepared in his office. Owners of houses or property shall be solely responsible for the payment of all charges due under these rules, which shall be recoverable in the manner laid down in Chapter VIII of the Municipal Regulation. The Executive Engineer may, however, receive payment from (1) agent or (2) a tenant. Such bills shall be presented by the Water Supply Department before the 20th of the month following the quarter to which they relate.

(*a*) In order to facilitate the adjustment of accounts between the owner of a house or property and his tenant or occupier, the Executive Engineer shall, when required in writing, furnish a memorandum shewing the consumption and probable charges on account of water rate and meter rent for any broken period of the quarter since the preparation of the last bill in his office.

14. Arrangements will be made to read the meters as far as possible within the 5th of every month after due notice. The meter reader will leave with any available person in the house, a slip showing the consumption of water during the preceding month.

15. All complaints regarding the accuracy of the reading or the non-receipt of the slips referred to in Rule 13 should be made in writing to the Executive Engineer within the 10th of the month concerned, after which no complaints will be entertained.

16. Any owner or occupier of a house or property having a water connection who may suspect or dispute the accuracy of the measurements indicated by the water meter, may apply to the Executive Engineer or his local representative or agent and have the meter tested on payment of a fee of Re. 1 per test. If, on actual test, the quantity registered by the meter exceeds 10 per cent of the correct quantity, the fee will be refunded to the party concerned; otherwise, it will be credited to Government.

17. The Water Supply Department reserves to itself the right to test any meter for its own satisfaction at any time. Due notice of the same shall be, however, given to the owner of the house or property concerned.

18. If, on examination, any meter be found to be out of order and consequently not registering correctly, the consumption during the period since the last reading till the meter is repaired or a new meter is attached, shall be calculated at the average daily consumption of the last registered period during which, in the opinion of the Executive Engineer, the meter was registering correctly and the consumption of water was not for any reason abnormal.

19. The Executive Engineer or his authorised agent may, at all reasonable times and with the permission of the owner (or if permission be refused, after giving six hours' notice), enter any premises in which there is a water connection in order to inspect and examine or repair the same.

20. The Executive Engineer or his authorised agent shall have the power to cut off the connection between the private pipes and the public main in any of the following cases:—

(*a*) In default of payment of the excess water rates, meter rent and other charges due under the rules or of any bill presented on account of repairs to meters under Rule 10 above within 20 days after the same shall have been demanded in writing or presented.

(*b*) If any house owner or occupier who is supplied with water shall use or permit the use of water for purposes in violation of the conditions on which the connection is granted, provided that six days' previous notice is given in writing.

(*c*) In cases of leakage of pipes or other defects in the private service arrangements likely to cause loss to Government, provided that 48 hours' notice is previously given.

(*d*) If water is allowed to run to waste after the owner or occupier has been warned (in a printed or written notice) against allowing such waste.

(*e*) In any case of broken pipes or fittings causing loss of water or likely to cause damage to property when such notice as may be possible shall be given.

(*f*) In any case of refusal to allow the Executive Engineer or his authorised agent to enter on any land or building for the purpose of inspecting service pipes, fittings, etc.

21. The Executive Engineer or his authorised agent shall have the power to open any road for the purpose of laying new mains, service pipes to private houses or for any purpose in connection with the distribution of water and shall be responsible for the efficient and prompt repairs of the roads, drains or any structure that has to be removed in order to carry out the work, provided that the Executive Engineer gives due intimation to the President in all cases in which more than half the road width is opened out or serious or prolonged obstruction to traffic is apprehended.

22. The Executive Engineer or his authorised agent shall have the power to stop or reduce the supply in any public main or sub-main for repairs or renewals without any notice. But when the stoppage is over an extensive area or is due to exigencies which can be foreseen, such previous notice as is possible under the circumstances will be given by general tom-tom.

23. The foregoing rules shall apply *mutatis mutandis* to all public institutions, such as, schools, temples, mosques, churches, public offices, etc., the supply allowed in each case free of charge, if any, being determined by the Water Supply Department and any excess used over and above the free supply as measured by water meters being paid for by the institutions concerned at the rates prescribed in Rule 12 above.

24. Rules 3, 4, 5, 7, 9, 19, 20 and 21 above apply *mutatis mutandis* to public street fountains which have been or may be allowed to be erected at the expense of private individuals for dedication to public use and such fountains shall be further subject to the following conditions:—

(*a*) That their number is strictly restricted by the *bonâ fide* public requirements of particular localities which shall be decided after consulting the Municipal Council and their opinion taken thereon.

(*b*) That they are not placed closer to any other public fountain than the minimum prescribed distance.

(*c*) That their free and unobstructed use at all hours by the public for whose use they are intended is duly safeguarded.

25. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules or to abolish altogether the system of house connections established thereunder or to stop or reduce the supply to any private attachment or any public fountain without assigning any reason whatsoever.

Proceedings of the Government of His Highness the Maharaja of Mysore.

26. Every person or institution owning or applying for a connection from the public main shall be deemed to have subscribed to the regulations and conditions herein contained.

27. The foregoing rules shall be published in the official Gazette and in such other ways as the Water Supply Department may consider necessary.

N.B.—" Under Section 176 (*d*) of the Municipal Regulation, VII of 1906, and under Notification of Government No. 6976—L. F. 30-1900, dated 7th November 1902, any person found misusing pipe water or damaging the pipes will be prosecuted."

No. 773—5276, dated 29th June 1912.

The Government of His Highness the Maharaja of Mysore are pleased to sanction the following revised rules, for the regulation of the water supply from the Vani Vilas Water Works, Mysore City, with effect from 1st August 1912.

VANI VILAS WATER WORKS, MYSORE CITY.

Revised rules for the regulation of water supply.

1. The Water Supply Department is responsible for all work connected with the water supply to the city of Mysore.

2. The expression "WATER SUPPLY DEPARTMENT" as used in these rules shall, until further orders, mean "the Executive Engineer, Water Supply and Stores Division" at Bangalore, hereinafter called the "Executive Engineer," working under the orders of the Chief Engineer and Secretary to Government of Mysore in the Public Works Department, or any agent duly authorized by the Executive Engineer.

3. The supply of water from the Vani Vilas Water Works is intended for *bona fide* domestic purposes and the water drawn therefrom whether from public fountains and taps or from private service pipes shall not be used for any other purposes whatsoever without obtaining sanction in writing from the Executive Engineer. A supply of water for domestic purposes shall not include a supply for horses or for washing carriages, where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture or business or for fountains or for any ornamental or mechanical purposes or for watering roads or gardens. Water may be drawn for watering public roads and flushing drains from metered fountains and connections specially provided for the purpose at the cost of the Municipality. The quantity of water so drawn shall be paid for by the Municipality at half the rates charged to house-owners.

4. Water for other than domestic purposes may be supplied with the special sanction of Government under conditions to be determined by Government.

5. No water cart will be allowed to take water from public fountains other than those specially set apart for the purpose by the Water Supply Department and indicated as such by notice boards, provided that the water is used for *bona fide* domestic purposes and is not drawn direct into the cart and provided also there is no inconvenience to the public.

6. As far as practicable, stand-posts will be erected from 600' to 1,000' apart, the interval varying according to the density of the population in the locality.

Public Works, dated 29th June 1912.

7. Applications for attachments from the public mains are to be made in the prescribed form to the Executive Engineer, who is authorized of himself to comply with such requisitions by owners of property, who are required to lodge with him or his agent the cost of the attachment as specified below. In other cases, the special sanction of the Chief Engineer will have to be previously obtained.

(*a*) The fees to be paid in advance for making attachment shall be as follows :—

	Rs.	a.	p
½" attachment or less	1	8	0
¾" do	2	0	0
1" do	2	8	0

(*b*) When an attachment has to be temporarily closed at the request of the owner, a charge shall be made at half the above rates, to be paid in advance, which shall include the cost of closing and re-opening the attachment.

8. Until further orders, private house service connections will be limited to houses whose annual rental value is Rs. 100 and to localities where the capacity and pressure of the public water mains permit of a supply being given without detriment to the street service.

9. Service pipes to private properties shall be laid only by plumbers duly licensed by the Executive Engineer on approved plans and specification under conditions and rules sanctioned by the Chief Engineer. The final connection between the private service pipes and the public water mains shall not be allowed until the work is inspected and passed by the Executive Engineer or his authorised agent.

(*a*) No alteration or extension shall be allowed without obtaining the sanction of the Water Supply Department and such work shall be carried out only by licensed plumbers.

(*b*) Repairs may, however, be carried out by owners of property after giving intimation to the Executive Engineer of the nature of repairs to be done, the work being entrusted to licensed plumbers only.

10. For every house connection, there shall be provided at Government cost and maintained in due working order, a water meter for the accurate gauging of the water consumed, provided that the Executive Engineer may, on the ground of cost, dispense with the erection of water meters in the case of very small houses not likely to consume more than the free allowance referred to in Rule 11 below.

(*a*) For all connections where a water meter is fixed a charge of four annas per month shall be levied as rent for the water, in addition to whatsoever charge may be due for the water consumed, provided that for the periods when the meter is out of order no rent shall be charged.

(*b*) The meters shall, wherever practicable, be placed inside the compound or premises of the owner of a house or property, who shall be held responsible for any wilful damage to the meter, and shall be liable to pay the cost of making good such damage, provided the Executive Engineer, subject to appeal to his next superior, decides that the damage has been wilful.

11. The quantity of water which any owner of a house or property will be allowed to draw from his house connection free of any charge (other than the general water rate to be assessed upon the annual rental value of his house and premises) shall be regulated in accordance with the following scale :—

"For every one rupee of the rental value of the house and premises, the authorised free allowance shall be 200 gallons, but in no case shall such free allowance be less than 4,000 gallons per month."

12. Any owner of a house or property who is found to have used in any quarter a quantity of water in excess of the quantity allowed free under the last

preceding rule, shall pay for such excess a price calculated at the rate of 8 annas per 1,000 gallons.

In calculating the excess charges under this clause, the quantity of excess on any whole number of thousands of gallons shall not be charged if it is 500 gallons and under but shall be charged for as if it were 1,000 gallons when it is over 500 gallons.

13. The excess water rate, meter rent and other charges due under these rules are to be collected by the Executive Engineer or his authorised agent, quarterly on bills prepared in his office. Owners of houses or property shall be solely responsible for the payment of all charges due under these rules, which shall be recoverable in the manner laid down in Chapter VIII of the Municipal Regulation. The Executive Engineer may, however, receive payment from (1) agent or (2) a tenant. Such bills shall be presented by the Water Supply Department before the 20th of the month following the quarter to which they relate.

(*a*) In order to facilitate the adjustment of accounts between the owner of a house or property and his tenant or occupier, the Executive Engineer shall, when required in writing, furnish a memorandum showing the consumption and probable charges on account of water rate and meter rent for any broken period of the quarter since the preparation of the last bill in his office.

14. Arrangements will be made to read the meters as far as possible within the 5th of every month after due notice. The meter reader will leave with any available person in the house, a slip showing the consumption of water during the preceding month.

15. All complaints regarding the accuracy of the reading or the non-receipt of the slips referred to in Rule 13 should be made in writing to the Executive Engineer within the 10th of the month concerned, after which no complaints will be entertained.

16. Any owner or occupier of a house or property having a water connection who may suspect or dispute the accuracy of the measurements indicated by the water meter, may apply to the Executive Engineer or his local representative or agent and have the meter tested on payment of a fee of Re. 1 per test. If, on actual test, the quantity registered by the meter exceeds 10 per cent of the correct quantity, the fee will be refunded to the party concerned; otherwise, it will be credited to Government.

17. The Water Supply Department reserves to itself the right to test any meter for its own satisfaction at any time. Due notice of the same shall be, however, given to the owner of the house or property concerned.

18. If, on examination, any meter be found to be out of order and consequently not registering correctly, the consumption during the period since the last reading till the meter is repaired or a new meter is attached, shall be calculated at the average daily consumption of the last registered period during which, in the opinion of the Executive Engineer, the meter was registering correctly and the consumption of water was not for any reason abnormal.

19. The Executive Engineer or his authorised agent may, at all reasonable times and with the permission of the owner (or if permission be refused, after giving six hours' notice), enter any premises in which there is a water connection in order to inspect and examine or repair the same.

20. The Executive Engineer or his authorised agent shall have the power to cut off the connection between the private pipes and the public main in any of the following cases :—

(*a*) In default of payment of the excess water rates, meter rent and other charges due under the rules or of any bill presented on account of repairs to meters under Rule 10 above within 20 days after the same shall have been demanded in writing or presented.

(*b*) If any house owner or occupier who is supplied with water shall use or permit the use of water for purposes in violation of the conditions on

which the connection is granted, provided that six days' previous notice is given in writing.

(*c*) In cases of leakage of pipes or other defects in the private service arrangements likely to cause loss to Government, provided that 48 hours' notice is previously given.

(*d*) If water is allowed to run to waste after the owner or occupier has been warned (in a printed or written notice) against allowing such waste.

(*e*) In any case of broken pipes or fittings causing loss of water or likely to cause damage to property when such notice as may be possible shall be given.

(*f*) In any case of refusal to allow the Executive Engineer or his authorised agent to enter on any land or building for the purpose of inspecting service pipes, fittings, etc.

21. The Executive Engineer or his authorised agent shall have the power to open any road for the purpose of laying new mains, service pipes to private houses or for any purpose in connection with the distribution of water and shall be responsible for the efficient and prompt repairs of the roads, drains or any structure that has to be removed in order to carry out the work, provided that the Executive Engineer gives due intimation to the President in all cases in which more than half the road width is opened out or serious or prolonged obstruction to traffic is apprehended.

22. The Executive Engineer or his authorised agent shall have the power to stop or reduce the supply in any public main or sub-main for repairs or renewals without any notice. But when the stoppage is over an extensive area or is due to exigencies which can be foreseen, such previous notice as is possible under the circumstances will be given by general tom-tom.

23. The foregoing rules shall apply *mutatis mutandis* to all public institutions, such as, schools, temples, mosques, churches, public offices, etc., the supply allowed in each case free of charge, if any, being determined by the Water Supply Department and any excess used over and above the free supply as measured by water meters being paid for by the institutions concerned at the rates prescribed in Rule 12 above.

24. Rules 3, 4, 5, 7, 9, 19, 20 and 21 above apply *mutatis mutandis* to public street fountains which have been or may be allowed to be erected at the expense of private individuals for dedication to public use and such fountains shall be further subject to the following conditions:—

(*a*) That their number is strictly restricted by the *bona fide* public requirements of particular localities which shall be decided after consulting the Municipal Council and their opinion taken thereon.

(*b*) That they are not placed closer to any other public fountain than the minimum prescribed distance.

(*c*) That their free and unobstructed use at all hours by the public for whose use they are intended is duly safeguarded.

25. The Government reserves to itself the power, whenever it deems fit to alter or modify the foregoing rules or to abolish altogether the system of house connections established thereunder or to stop or reduce the supply to any private attachment or any public fountain without assigning any reason whatsoever.

26. Every person or institution owning or applying for a connection from the public main shall be deemed to have subscribed to the regulations and conditions herein contained.

27. The foregoing rules shall be published in the Official Gazette and in such other ways as the Water Supply Department may consider necessary.

N.B.—"Under Section 176 (*d*) of the Municipal Regulation, VII of 1906, and under Notification of Government No. 6531—L. F. 74-77, dated 6th December 1897, any person found misusing pipe water or damaging the pipes will be prosecuted."
